Classroom Video Architecture & Master Rollout Strategy

A Pedagogical Blue-Print for Active Historical Inquiry, Dual-Pane Classroom Theater, and Multi-Lens Differentiation Across All Units

Core Purpose: Video in secondary history lessons is too often a passive, unmonitored experience or a source of teacher friction (managing ads, searching for timestamps, or losing pupils to off-task distraction). This architecture transforms video into a **rigorous, differentiated, and time-controlled learning instrument** that directly drives GCSE examination skills and deep historical inquiry.

1. The Classroom Architecture: Solving Teacher Pain-Points

⏱️ Eliminating Scrubber Friction

Teachers have no time to hunt for specific scenes. Every clip specifies an exact **Recommended Watch Window** (e.g. `01:20–05:50`) with a one-click **"Jump to Watch Window"** button and instant **"Restart (0:00)"** control.

🎭 Dual-Pane Focus Theater

Isolates the video in a 16:9 player on the left while simultaneously anchoring the pedagogical tasks on the right. **Zero YouTube sidebar recommendations, zero external comments, zero distraction voids.**

🧭 Curricular Phase Tagging

Every clip is assigned an explicit lesson phase badge: `Starter Hook (0–5m)`, `Guided Instruction`, `Source Analysis & Evidence`, or `Exam Extension`, telling the teacher exactly where it belongs in the hour.

🔍 Historical Tone & Perspective Alerts

Briefs the teacher on historiographical perspective (e.g. "*Employs 1946 British newsreel rhetoric*" or "*Academic demographic analysis from 1922 censuses*"), modeling historical discipline.

2. The 3-Tier Cognitive Scaffolding Ladder

To ensure universal classroom accessibility from lower-attaining pupils to Grade 9 candidates, every single clip is paired with a strictly differentiated 3-tier task ladder:

Tier	Target Cognitive Skill	Pedagogical Function	GCSE Assessment Anchor
TIER 1: RECALL	Concrete Factual Retrieval	Direct timestamp anchor (`[01:15]`). Fosters early success for SEN/Lower-attainers by identifying names, dates, casualty counts, or treaties.	AO1: Knowledge & Understanding
TIER 2: EXPLAIN	Causal Reasoning & Impact	Requires pupils to articulate *why* an event occurred and connect causes to immediate geopolitical consequences.	AO1 & AO2: Cause, Consequence & Significance
TIER 3: CHALLENGE	Historiographical Critique & Bias	High-attainer stretch: evaluates film propaganda, narrator rhetoric, conflicting interpretations, or ethical tensions.	AO3 & AO4: Source Evaluation & Interpretations

💡 One-Click Interactive Mark Schemes

Underneath the tasks, a collapsible **"Reveal Model Answer & Teacher Mark Scheme"** accordion allows instant whole-class projection, self-assessment, or peer-marking before pupils transition to textbook reading.

Production Methodology & Platform Status

The 4-Stage Quality Gate System for Methodical Unit Rollout

3. The 4-Stage Production Pipeline (Strict Quality Gates)

To avoid rushed authoring, broken links, or hallucinated timestamps, every curriculum unit passes through four non-negotiable gates:

1. **Stage 1: Sourcing & Curatorial Multi-Perspective Audit**
   Audit existing video arrays for dead links. Curate 3–4 high-definition clips per lesson across distinct pathways: *Starter Hook*, *Enquiry Evidence*, *Multi-Perspective* (e.g. Israeli vs. Palestinian; German vs. Allied), and *Cinematic / Oral History* (ERA / BBC / IWM). Sourcing directory is submitted for review before authoring begins.

2. **Stage 2: Timestamp Verification & Pedagogical Authoring**
   Direct inspection of the footage: establish the optimal 2–5 minute *Watch Window*. Author the teacher briefing (phase + tone alert). Formulate the bespoke 3-tier question ladder with exact minute-and-second anchors (`[MM:SS]`), plus detailed GCSE-calibre model answers.

3. **Stage 3: Technical Ingestion & Database Rebuild**
   Inject clean data into `units/[unit_id]/data.js` and `data/[unit_id].json`. Recompile `public/database.json` with zero entity linter errors. Synchronize any introduced visual assets with `master_rights_database.json` and recompile legal provenance PDFs.

4. **Stage 4: Headless Browser Verification & Proofing**
   Automated browser testing across multiple lessons using `browser_subagent`. Confirm modal opening, correct timestamp seek triggering, mark scheme expansion, zero layout shifting, and capture visual verification screenshots.

4. Platform Video Inventory & Baseline Audit (20 Units)

A complete census of all 20 units currently active within the platform database:

Unit ID	Curriculum Tier	Lessons	Existing Clips	Gold Standard (3-Tier)	Current Status
cme_new	GCSE Paper 2	12	56	56 (100%)	✅ Gold Standard Complete
weimar_nazi_germany	GCSE Paper 3	16	32	0	⚡ Next Priority (Stage 1)
edexcel_medicine	GCSE Paper 1	26	51	0	In Queue (GCSE Core)
eee	GCSE Paper 2	12	16	0	In Queue (GCSE Core)
usa	GCSE Paper 1	16	32	0	In Queue (GCSE Core)
cold_war	GCSE Paper 2	7	0	0	⚠️ Full Sourcing Needed
ks2_ww2	Key Stage 2	11	36	0	In Queue (KS2 Specialist)
the_shoah	KS3 Depth Study	7	7	0	In Queue (KS3 Core)
great_war (1 & 2)	KS3 Depth Study	11	29	0	In Queue (KS3 Core)
Remaining KS3 (10 units)	KS3 Thematic	60	110	0	In Queue (KS3 Thematic)

Phased Rollout Schedule & Compliance

A Strategic Phased Horizon for 100% Platform-Wide Video Excellence

5. The Phased Implementation Schedule

Phase 1: Benchmark Deployment (Completed)

Conflict in the Middle East, 1945–1995: 12 lessons, 56 multi-lens video clips fully authored with 3-tier scaffolds, watch windows, and verified in the Dual-Pane Theater.

Phase 2: GCSE Exam-Classroom Core (Active)

Focuses on high-stakes GCSE examination specifications where active retrieval and mark scheme modeling deliver immediate examination impact:

1. **Weimar & Nazi Germany** (16 lessons • 48–64 clips)
2. **Medicine Through Time** (26 lessons • 75+ clips)
3. **Early Elizabethan England** (12 lessons • 36–48 clips)
4. **USA 1954–75** & **Cold War** (23 lessons total)

Phase 3: Key Stage 3 Core Enquiry Units

Extends the standard to foundational Key Stage 3 historical investigations:

- *The Great War (Origins & Trench Warfare)*
- *The Shoah (Holocaust Education & Survivor Testimony)*
- *Medieval England & The Norman Conquest*
- *Monarchy, Religion & Power (Tudors/Stuarts)*

Phase 4: Thematic & Primary Horizons

Completes the platform catalogue across thematic units and Key Stage 2:

- *Industrialisation & Empire* (Parts 1 & 2)
- *Post-War Britain & Australian Colonisation*
- *Water & Sanitation Across Time*
- *KS2 World War II Companion* (Age-adapted scaffolding)

6. Non-Negotiable Editorial & Legal Standards

🏛️ Institutional Neutrality & Anonymity

All materials are authored under **The History Revision Hub** with 100% strict institutional anonymity. No school names, staff identities, or local identifiers may ever appear.

⚖️ Statutory Impartiality & Multi-Perspective Balance

All contentious historical topics (e.g. Israeli-Arab conflict, imperial conquest, Cold War ideologies) must provide multi-lens perspectives: balanced primary voices with zero partisan slant.

📜 Rights & Provenance Synchronization

All video and archival assets are mapped to educational fair dealing (CDPA 1988), Public Domain, or Open Government Licences and synchronized with the master provenance register.

🛡️ Pedagogical Verification Gate

No video is released without an active watch window, authentic minute-and-second anchors, and complete model answers to ensure classroom readiness from day one.

Immediate Next Action: Commencement of **Stage 1 (Video Sourcing & Curatorial Audit)** for *Weimar & Nazi Germany* across all 16 canonical lessons.
