Sources for use with Section A.

Source A: A clinical extract from an RAMC medical officer logbook at an Advanced Dressing Station (ADS) near Ypres, May 1915.

The men were brought in stumbling, clutching their throats and gasping violently for air. Their eyes were severely inflamed and streaming with tears. We immediately began washing out the blinded eyes of the chlorine gas casualties using simple bicarbonate of soda solutions. It provides some relief, but the respiratory damage is profound. Many will not survive the night.
